SUMMARY

Final-year B.E. Computer Science and Engineering student with internship experience in Python, PySpark, SQL, log analysis, and document search. Built data-processing workflows and interactive Streamlit applications. Seeking an entry-level software, data, or machine learning engineering role.

TECHNICAL SKILLS

Programming: Python, C, SQL

Data: PySpark, Apache Spark, Spark DataFrames, ETL, log processing

Frameworks & Tools: Streamlit, LangChain, FAISS, GitHub

Web: HTML, CSS

Knowledge: Machine learning fundamentals, large language model fundamentals, retrieval-augmented generation

INTERNSHIP EXPERIENCE

Infosys Springboard — PySpark Intern | Nov 2025 – Jan 2026

Distributed Log Processing System

- Processed and cleaned log data with Python, PySpark, and Spark DataFrames to prepare it for downstream analysis.
- Analyzed error frequency, server activity, and log trends; exported findings in CSV and JSON reports.
- Built a Streamlit dashboard to display monitoring statistics and error insights.

RSUN Technology, Madurai — Generative AI Intern | Jun 2026 – Jul 2026

Document Knowledge Hub

- Developed a Python application for searching and answering questions across PDF, DOCX, XLSX, and TXT files.
- Implemented document ingestion, text chunking, FAISS similarity search, and source citations.
- Built a Streamlit interface for document uploads, question answering, and usage analysis.

EDUCATION

Bachelor of Engineering — Computer Science and Engineering (Honours)

Nadar Saraswathi College of Engineering and Technology, Theni | Anna University

2023 – 2027 | CGPA: 8.1/10 | Final Year

ACHIEVEMENTS

- Published “Data-Driven Prediction of Academic Success Using Machine Learning Techniques” at NCEAIMLCP’25.
- Selected as Google Gemini Student Ambassador; completed the programme in December 2025.
- Received the Academic Excellence Award for 2024–2025.
